

Thank you for taking the time to receive comments from the public. I am writing to express my concern that of the potential FCC decision that the new type of station, LPFM, could take priority over existing FM translator stations. This would take my favorite station KLOVE (KZLV 93.1) off the air. I listen to it 90% of the time because it is offer positive and encouraging music that is not available anywhere else in San Antonio, TX. They provide local event calendars free to non-profit organizations to help them get the word out. They make sure the music they play is "safe" for the whole family to listen to. I can't tell you how great it is to hear my little boys singing songs that are positive and uplifting rather than the negative and depressing music on most other stations. There's nothing else like it in San Antonio. The community is well served by having this real alternative to go to and it would be a huge loss to San Antonio if it were unable to broadcast. I know most of my friends feel the same, but with the big election taking so much focus I'm sure there are others who feel the same but may not be aware of this issue. Please allow KLOVE (KZLV 93.1) to remain on the air by not taking away it's much needed repeaters and FM translators. I know you have to balance the demand for bandwidth new technologies are demanding, but it would be a great disservice to the people of San Antonio to cut off a great and much needed station like KLOVE (KZLV 93.1).

Thanks again for your time and consideration in this matter.

Sincerely,  
Gary B Paul
